

COVID-19 WHAT TO DO IF YOU HAVE NOT BEEN VACCINATED

What do I do if I have not been vaccinated and:	
I have symptoms of COVID-19?	<ul style="list-style-type: none"> <li>• <b>Do not come to campus/lab/clinical.</b></li> <li>• Notify your faculty member(s) that you will be missing lab/clinical/class.</li> <li>• You will be instructed to monitor your symptoms/fever daily and see your health care provider for screening/testing/care within the first 3 days of on-going symptoms.</li> <li>• Isolate yourself from others.</li> <li>• If a health care provider determines COVID-19 testing is not needed or test results are negative, students must provide that documentation* before returning to campus/lab/clinical.</li> </ul>
I have a known exposure to COVID-19?	<ul style="list-style-type: none"> <li>• <b>Do not come to campus/lab/clinical.</b></li> <li>• Notify your faculty member(s) of your exposure.</li> <li>• You will be instructed to start a 14-day quarantine from the date of your exposure; a 10-day quarantine may be followed if testing done on Day 7 is negative.</li> <li>• Work with Faculty and Student Services to plan for your academic success.</li> </ul>
Someone I was/am in close contact with has symptoms or is being tested for COVID-19?	<ul style="list-style-type: none"> <li>• <b>Do not come to campus/lab/clinical.</b></li> <li>• Notify your faculty member(s) of your exposure.</li> <li>• Avoid further exposure/contact with the individual if possible.</li> <li>• You will be instructed to quarantine for 14 days from your last date of contact or until the individual's COVID-19 is ruled out/test results are negative.</li> <li>• See the CDC website related illness in the home <a href="https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/living-in-close-quarters.html">https://www.cdc.gov/coronavirus/2019-ncov/daily-life-coping/living-in-close-quarters.html</a></li> </ul>
Someone I was/am in close contact with was notified they have been exposed or is on quarantine/being tested	<ul style="list-style-type: none"> <li>• <b>Limit all further exposure to that individual</b></li> <li>• If that individual becomes symptomatic or has positive test results <i>and you were in close contact with them less than 48 hours prior to their symptoms/positive test</i>, it is considered an exposure; notify your faculty member(s) and see actions above for exposure.</li> </ul>
What happens if:	
I have positive COVID-19 test results?	<ul style="list-style-type: none"> <li>• Notify your faculty member(s) of your test results as soon as possible</li> <li>• You will be instructed to quarantine for 10 days starting with the onset of symptoms.</li> <li>• See the CDC website for suggestions related to care during your illness <a href="https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/steps-when-sick.html">https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/steps-when-sick.html</a></li> <li>• The Virginia Department of Health tracks individuals with positive test results and may contact you to initiate contact tracing.</li> <li>• In order to return to campus/lab/clinical you must have improved symptoms, a temperature below 100°F in the absence of fever-reducing medication and have written clearance/documentation* from a health care provider.</li> </ul>
One of my classmates tested positive for COVID-19?	<ul style="list-style-type: none"> <li>• The college is monitoring potential exposure closely. Students who have been within 6 feet or less for 15 minutes or more with an individual who tests positive for COVID-19 will be notified of potential exposure via email as soon as possible. A 14-day quarantine beginning with the date of suspected exposure will be initiated; Possible 10-day quarantine if testing done on Day 7 is negative.</li> </ul>

COVID Nurse Dr. Marcella Williams will send an email to collect additional information, provide instruction and follow up with students under quarantine for any reason.
