

COVID-19 WHAT TO DO IF YOU ARE FULLY VACCINATED*

* Fully vaccinated is defined as at least 2 weeks after receipt of the second dose of a two-dose series vaccine (Pfizer or Moderna) or 2 weeks after vaccination with a single-dose vaccine (Johnson & Johnson). Please visit the CDC website for additional information <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated.html>

What do I do if I have been fully vaccinated and:	
I have symptoms of COVID-19?	<ul style="list-style-type: none"> • Do not come to campus/lab/clinical. • Notify your faculty member(s) of your symptoms. • Monitor your symptoms/fever daily and see your health care provider for screening/testing/care within the first 3 days of on-going symptoms. • Isolate yourself from others. • If a health care provider determines COVID-19 testing is not needed or test results are negative, students must provide that documentation* before returning to campus/lab/clinical.
I have a known exposure to COVID-19?	<ul style="list-style-type: none"> • Notify your faculty member(s) of your exposure. • No quarantine is needed – monitor for symptoms of illness for 14 days; notify faculty and isolate yourself immediately if symptoms develop • Seek testing 3-5 days after your exposure and notify faculty of the test results
Someone I was/am in close contact with has symptoms or is being tested for COVID-19?	<ul style="list-style-type: none"> • Notify your faculty member(s) of your exposure. • No quarantine is needed – monitor for symptoms of illness for 14 days; notify faculty and isolate yourself immediately if symptoms develop • Limit further exposure to that individual; notify faculty if that individual tests positive for COVID
Someone I was/am in close contact with was notified they have been exposed or is on quarantine/being tested	<ul style="list-style-type: none"> • Limit all further exposure to that individual • Monitor for symptoms of illness for 14 days and notify faculty if symptoms develop
What happens if:	
I have positive COVID-19 test results?	<ul style="list-style-type: none"> • Notify your faculty member(s) of your test results as soon as possible • You will be instructed to quarantine for 10 days starting with the onset of symptoms. • See the CDC website for suggestions related to care during your illness https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/steps-when-sick.html • The Virginia Department of Health is tracking individual with positive test results and may contact you to initiate contact tracing. • In order to return to campus/lab/clinical you must have improved symptoms, a temperature below 100°F in the absence of fever-reducing medication and have written clearance/documentation* from a health care provider.
One of my classmates tested positive for COVID-19?	The college is monitoring potential exposure closely. Students who have been within 6 feet or less for 15 minutes or more with an individual who tests positive for COVID-19 will be notified of potential exposure via email as soon as possible. A 14-day quarantine beginning with the date of suspected exposure will be initiated.

COVID Nurse Dr. Marcella Williams will email students with instructions, collect documentation, and follow up with students under quarantine for any reason.
